

HILO RACES WON In Slow Time ON MUDDY TRACK

(Special to The Evening Bulletin)

HILO, Hawaii, July 5.—The Hilo team won the great baseball game yesterday from the All-Hawaii players. The score was 6 to 2.

The races were interesting and the crowd enthusiastic, but the track was very muddy and slow time made by the winners. The match race was won by Soso; time 1:23 for three quarters.

The first race, half-mile, went to Egyptian Princess in 1:18. The second race, three-quarters, for Hawaiian breds, went to Soso 1:23, with Antidote 1:35. The third race, half-mile pony, was won by Keanakolu in one minute. The 2:30 race, best two in three to harness, was won by John D. in two heats, 2:58 1-2 and 2:55. The mile and a quarter free for all was declared off.

The sixth race, half-mile for Hawaiian breds, was won by G. H. R. in 55 1-4. The seventh race, one mile free for all, went to Egyptian Princess, 1:53. The eighth race, Japanese, was declared off. Bruner took the half mile free for all in 1:22. The last, lunas' race, went to Richie in 1:53.

HIGH TEMPERATURES; LIGHT, VARIABLE, WINDS

Section Director A. McC. Ashley, reporting on weather and crop conditions of the Territory for the week ending July 1, says, by way of summary:

During the past week, high temperatures and light variable winds have prevailed throughout the group. In Hawaii, heavy rains have fallen in the Kona, but elsewhere, even along the windward coast, only light showers have occurred. Heavy showers fell early in the week in the Koolau district of Maui, but the water supply in that section decreased rapidly during the latter part of the week, while conditions continued steadily dry in all other sections of the island. Only light showers fell in Oahu, but conditions were much improved in Kaula by heavy showers in most sections.

The 1906 cane grew rapidly under the dry and warm weather conditions, which were also very favorable for planting and other field operations in the plantations. The dry weather has necessitated irrigation in the lower levels of North Kohala, Hawaii, and the resumption of pumping in Central Maui. Pastures are in good condition in some localities but, in general, have begun to show the effects of the dry weather, especially in North Kohala, Hawaii, the Kula and leeward sections of Maui, and portions of Oahu. Coffee is in good condition in all sections and has begun to ripen in the lower lands of leeward Hawaii; a good rain would be beneficial to the trees in windward Oahu. Pineapples are ripening rapidly and are being harvested in all sections. Sisal is being milled in leeward Oahu and an exceptionally fine grade of fiber is being secured. Young sisal plants in Central Maui are growing nicely. The harvesting of first crop rice is proceeding rapidly in all sections, and in some localities plowing and preparation of land for the second crop have begun.

WHERE ARE THEY?

Says Charles E. Russell in his analysis of the Garfield report on the Beef Industry in the June instalment of "The Greatest Trust in the World," Everybody's Magazine of June:

"The whole structure of Mr. Garfield's argument in favor of the Beef Trust turns upon the following bare assertions:

"At the same time these companies do a smaller production of the beef business of the country than is ordinarily supposed, and comparatively narrow limits are placed upon the control which they could, even if they acted in harmony, exercise over the prices of cattle and of beef."

"The estimates of the Bureau, from the best statistical material available, indicate that the total slaughter of cattle (aside from calves) in the United States during 1903 was about 12,000,000 head, of which the Armour, Swift, Morris, National, Schwartzchild & Sulzberger, and Cudahy companies slaughtered 5,521,697, or about 45 per cent. The proportions of the beef supply of the country which these concerns collectively furnish is about the same, notwithstanding the fact that they export several hundred thousand carcasses of dressed beef annually."

"To any intelligent cattleman this delirious extravagance is all that is necessary to know about the Garfield report. Twelve million five hundred thousand cattle—where on earth did the man get the slightest authority for any such figures? They savor of Bedlam. The report says only that they are drawn from the best available statistics. Statistics! What statistics? There are no statistics about total cattle slaughtering. Even the United States government has none. You cannot find them anywhere. They do not exist. The census of 1900 reported the annual slaughtering in this country to be 5,530,911 cattle, but aside from that there is not the vestige of a basis for definite figures. Mr. Garfield would have us believe that in three years the number of cattle annually slaughtered in this country has much more than doubled. What becomes of these six or seven million carcasses thus produced? He does not tell us. They are not eaten and they are not exported. Then what does become of them? And this is the report that has been praised in some quarters for its 'figures' and its 'truth in the face of public clamor!'"

PASSENGERS ARRIVED.

From the Colonies, per S. S. Sierra, July 4.—For Honolulu: N. A. Cobb, Mrs. Cobb, Miss M. Cobb, Miss Freda Cobb, Miss Ruth Cobb, Miss Dorothy Cobb, E. M. Grosse, Mrs. Grosse, J. M. Grosse, Miss J. Stokes, H. B. Rice, Mrs. Rice, G. Kunkel, James Robertson, James Hore, Eugene Dloesch.

MARRIED.

SCHMIDT-SCHMIDT — At Kipahulu, June 24, 1905, H. W. Schmidt of Honolulu to Miss Wilhelmine Schmidt of Frankfurt on Main. No cards.

WAILUKU COURT NOTES.

(Special to The Bulletin)

Wailuku, Maui, June 30.—The weather in Wailuku this week has been not simply warm but hot, so much so that even in the shade the heat is oppress during the early hours of the afternoon, even at Kahului where the wind is at all hours high, there has been a dead calm and much heat during the entire week.

The Circuit Court has been engaged this week in the trial of two cases which have taken most of the time of the court. The first was the ejectment case of Kenne Kapale vs. the Pioneer Mill Co., the same being tried by a jury, the plaintiff was represented by C. F. Peterson, Esq., of Honolulu, and the defendant by J. L. Coke, D. H. Case and Richardson. The jury rendered a verdict in favor of the plaintiff.

The second case, which is yet on trial, is the case of J. Garcia, guardian, vs. the Portuguese Mutual Benefit Society for the payment of \$190 in favor of the minor children of the late J. Rodriguez of Wailuku, the plaintiff is represented by J. M. Vivas and the defendant by E. C. Peters of Honolulu.

WITNESSES TRANSFERRED

The Federal authorities have arranged for the transfer of five soldiers from Camp McKinley, who are needed as witnesses when the cases of the counterfeits come up before Judge Dole next October. As the two companies which are now stationed at the Camp are soon to return to the mainland and have their place taken by other companies, the men who are needed as witnesses will be transferred from their old companies to the ones which are to arrive.

Several True Bills.—It is, of course, true that a jury, theoretically, is composed of a set of unprejudiced men, with open minds; still there may be occasion when a slight personal feeling invades their ranks. Such was evidently the thought borne in upon the tailor who, rising to state his case, and having declined the services of a lawyer for reasons best known to himself, looked over the jurymen and then turned to the judge. "It's no use for me to tell you about this case, your honor," he said, dejectedly, "not unless you dismiss that jury and get in a new lot. There isn't a man amongst 'em but what owes me something for clothes."—Youth's Companion.

"Late again, Mr. Brown! Late again!" chirped the manager. "I believe you'd be late at your wedding." "Ah!" murmured the married man. "And a lot later, too, if I got the chance again."—Chicago Journal.

Gear Struck Gold In B & M Mine Says Tonopah Paper

The Tonopah (Nevada) Daily Sun of June 20 says:

George D. Gear, formerly Circuit Judge at Honolulu, and George S. McKenzie, once Sheriff of Napa County, California, both of whom are interested in the Lida B. & M. gold mine, have returned from an inspection of their property in a considerably elated frame of mind. They believe they have one of the best properties in the district. They left Sunday night for Honolulu, where they will secure the capital necessary for development.

The Lida B. & M. is surrounded by the Brown Hope, the Ohio group, the Buckboard, the Welch group, the Florida, Wisconsin, Caledonia and Thanksgiving groups. Big strikes have been made recently in the Buckboard and the Alpha. Mr. McKenzie reports that there is an abundance of timber and water available on their property. He reports that the gold-bearing ore outcrops at the surface, running from ten to forty feet in width, and assaying as high as \$70. A shaft has been sunk forty feet and cross-cuts will be made at fifty feet.

While in Goldfield and Lida, Messrs. McKenzie and Gear took the preliminary steps for the erection of a smelter within one and one-half miles from the B. & M. claim. They secured contracts for 200 tons of ore daily and with a number of Honolulu and San Francisco capitalists will put the smelter deal through at as early a date as possible.

THREE BIG BOATS.

Wednesday, July 5.

The eyes of the world were literally on Honolulu's celebration of Independence Day, for folks from far away dropped in yesterday to spend an hour or so. The Pacific Mail steamship Korea, having arrived off port from the Orient about 7:30 Monday evening, came into the harbor, docking at the Blackfield wharf early in the morning. At 5 p. m. she sailed for San Francisco with a bunch of Honolulu passengers. She is commanded by Captain Zeeder, who relieves Captain Seabury for a few trips. The Korea brought 500 tons of freight.

The Oceanic liner Sierra arrived from the Colonies early in the morning and sailed for the Coast at 3 p. m. The A. H. S. S. Nebraskan reached port early in the day with nine days' mail.

"This," said the city chap who was showing his rural relative the town, "is called the 'tenderloin' district." "Why is it called that?" queried the rural relative. "Because it is so tough," explained the other.—Chicago News.

EUREKALOL ITCH-ECZEMA CURED

Not something that will cure everything, but a specific prescribed for over thirty years by Doctor Burgess, one of London's most celebrated skin specialists. The EUREKALOL ECZEMA CURE is the famous remedy guaranteed to quickly relieve and permanently cure any disease of the skin or scalp. It is purely anti-septic and germicidal. We have thousands of testimonials to prove the true value of its positive cure.

DON'T WASTE YOUR TIME AND MONEY ON "CURE-ALLS." They absolutely do no good.

Write to us at once for our famous EUREKALOL ECZEMA CURE. It will tell the story that is more convincing than pages of argument. Price postpaid, 50 cents and \$1.00.

DON'T SUFFER FROM THOSE TORTUREFUL PILES. One application of the famous EUREKALOL PILE CURE will give immediate relief. Price postpaid, 50 cents.

THE EUREKALOL REMEDY CO., 1197 Bergen St., BROOKLYN, N. Y.

Hawaiian Electric Co Proposes To Lease Nuuanu Station

MATTER TO COME BEFORE SUPERVISORS

An entirely new phase of the electric light question, which has been the subject of considerable conference between the Superintendent of Public Works and the Board of Supervisors, has been added by the advent of the Hawaiian Electric Company in the field of those who wish to have the control of the Territory's electric light plant in Nuuanu valley.

Although nothing about the matter has as yet been given out by official sources, still it is an assured fact that the Hawaiian Electric Company has made a proposition to the Public Works Department by which it would take over the Nuuanu electric station. The proposed transaction should take the form of a lease of the plant by the Hawaiian Electric Company from the Territory, which holds the ownership of the plant.

While the Hawaiian Electric Company has without a doubt made the proposition to the Superintendent of

Public Works, it has not as yet received an answer thereto. As the matter of lighting the city will be in the hands of the Board of Supervisors, it is necessary that the entire matter be submitted to it. If the Supervisors decide to light the city themselves, they will have to run the plant and be responsible for it to the Territory, whose property it still remains. If, on the other hand, the Hawaiian Electric Company should lease the plant, the County would have to pay it for the lights in the streets and public places.

A local electrician, who is well acquainted with the conditions stated that the Hawaiian Electric Company has for some years past been anxious to acquire the control of the Nuuanu valley plant. This gentleman is decidedly opposed to the proposed transaction, as he states, this would give the Hawaiian Electric Company a monopoly which might become a dangerous one for the community.

MAUI CHAMPION

BASEBALL TEAM

BADLY DEFEATED

(Special to The Bulletin)

Wailuku, Maui, July 5.—The Stars, the champion baseball team of Maui, were badly beaten in a game played at Wailuku yesterday. The score was: Hima, 8; Stars, 1.
